

partner of choice

Baseball, the nation's pastime is serious business. To keep fans and players safe, RFK Stadium selected ASG Security of Beltsville, MD to design and implement a world-class video surveillance system. Joe Nuccio, CEO of ASG Security knew he needed a strong team for this challenging project and drafted Honeywell as his partner of choice. Using Honeywell video equipment, ASG installed two systems: one to protect the stadium 24/7 and a separate

system for game day. The dedicated Honeywell/ASG team finished a 16 week project in six weeks, in time for opening day. Working together, Honeywell and ASG hit a home run for the baseball fans of the Washington DC area.

Honeywell
