

Authorized Dealers Honored for their Community Service Efforts Throughout the Year

We are all in the life safety business and the products we offer save lives every day. Community Service is a natural extension of this ideal. We broaden our product offerings to include other things that can help protect people in our neighborhood every day.

First Alert Professional offers materials and services to help you support your community and separate you from the competition. We truly believe in the importance of giving back and many of you have shown that you strongly believe in this principle as well.

Your Community Service efforts throughout the year are truly inspirational. Some of you do little things every day to help support your customers. Others plan major events year after year to help people in need, and promote safety and security. Whatever the case, we are overwhelmed by the consistent dedication and commitment we have seen from so many of you.

Dealer Community Service Awards

At this year's convention, 28 authorized dealers received a prestigious Community Service Award for holding or sponsoring Community Service initiatives in their local area. From child safety days to gift drives, our dealers showcased their dedication in a variety of ways.

Special Community Service Award

This year, we recognized **McGruff SafeGuard** with a Special Community Service Award for the work they do every day to protect children on the Internet. Many of you have already established relationships with this company, offering their free service to your customers and prospective customers. All of you have the ability to extend this fantastic offer to your clients and prospects.

McGruff SafeGuard is a simple, free service designed to help parents manage their kids' increasingly dangerous online activity. The service intelligently monitors ALL Internet activity for potential danger. It allows parents to conveniently review their kids' activities on a secure website, or to be notified of potentially dangerous situations via cell phone and e-mail alerts.

The service alerts parents to dangerous behavior, such as Internet predators, sexual abuse, drug use, or criminal activity, and provides helpful advice to parents on how to deal with certain issues. McGruff SafeGuard is the first and only service to electronically connect parents with law enforcement in their common battle against Internet sexual predators.

Thank you to all of our 2009 Community Service Award winners. We truly appreciate the extra work you do every day to better serve your community and we look forward to honoring your continued efforts at Convention 2010!
